

United States Geological Survey Re-
search Methods Section, by Questionnaire

The bureau also has applied patents on processes for extracting uranium from its ores. Such processes are radioactive ore. The processes are the result of the work of the bureau's chemists and their purpose is to reduce the cost of radium and also to prevent the monopoly which goes with the radium. The bureau's chemists have been asked for in the names of Richard B. Moore, chairman of the Denver laboratory, and K. A. Peterson, secretary of the bureau, that these new methods will cut the cost of radium fully one-half. Perhaps more. They are to be for use by the citizens of the United States.

Another engineer of the bureau, Fred G. Fleegem, in charge of oil well tests, has invented a new well valve or control valve for oil wells. A device that will at once stop the flow of gas or oil in a new well when it has been drilled and in the Cushing oil fields of Oklahoma,

Went to Build at Montreal
The United States Steel Corporation denies the report that it intends to put a big steel plant in Montreal. When conditions were right for a renewal of efforts toward expansion, the corporation will proceed with the plant to be built on Canadian soil opposite Detroit. A round-up some months ago, plans for expansion are in the early stages of consideration work which will entail an outlay of about \$20,000,000.

Council Awards Detailed Drawings From County Competition

The proposition to build an additional walk on the south side of the bridge would find on West Main street and council wants to know how it is proposed building it before granting permission for the work to proceed.

West side residents are anxious for the new walk. The commissioners want to know the cost and the present walk must be repaired.

Dawson Kindergarten Class Pleases

The spring festival held Saturday afternoon at the Dawson Driving Park under the auspices of the Dawson kindergarten was a grand success. The clever work of the children was witnessed and enjoyed by a large crowd of representative residents of Dawson and nearby towns.

The festival was the first event of the kind ever given in Dawson and was under the direction of Mrs. Lena Posey, O. A. teacher at the kindergarten. A delightful feature of the program were folk dances gracefully danced by the children.

RELIEF COMMITTEE IS FORMED

**Homes are Overturned and Carried
Many Yards Debris Scattered for
Miles as Result of Terrific Wind-
storm, Victims Trapped Indoors**

Six persons were injured two of whom were probably dead and a score of buildings were wrecked or damaged when a terrific cyclone swept over Laramie, a small town in Somerset county, three miles east of Connecticut, last night. The damage was done by a storm of wind and rain. The game of wind first wrecked the town came without warning. It swept a swath 60 feet wide through a portion of the town then seemed to split in two. The rushing storm came on in a further on. The damage was done in 30 seconds.

Wreckage and debris is strewn for miles. Great damage was done in the suburbs of Laramie. Laramie, 30 miles from the city, was hit. The brunt of the storm's wrath. Scarcely a building a the town escaped some damage while half a dozen were completely wrecked.

 Camerons and in house with her
 Lives at Hinesville seriously
 injured but will probably recover
 2. GILLENBERGER 35 yrs old
 old cut and bruised
 GILLENBERGER brother of
 Charles slightly injured

The cyclone lasted but a few min-
utes, but swept down the valley from a
hill to the south, whirled across the
mountain and then continued over the
downland beyond. There was little
damage. Houses were torn from their
foundations and twisted about as if
they had been whirled in the air. One
man was trapped indoors, but the others
were not injured. The cyclone was
a miraculous escape.

Mrs. Cameron had a terrible ex-
perience. Her house was turned com-
pletely upside down. When the storm
in the second floor. When the crash-
ing came she fell through the ceiling of
the room in which she had been sitting
and when found a number of
men were trying to drive a nail of the
roof. She was unconscious for
four hours and little hope is enter-
tained for her recovery.

The committee in charge of the improvement of the bridge was composed of John A. Benson, chairman; Alfred Benj. D. Moore, Jr., secretary; Anna Bern Hendricks, Howard W. Phelps, Loughton and Howard Taylor and it was given under the direction of Misses Stout and Kennedy at the faculty.

BRIDGE WALK HELD TUESDAY

Council Wants Detailed Plans From County Commissioners.

The proposition to build an additional walk on the Dutch bridge, which has been pending before the council on the south side are being held off until the future of the commissioners furnish council with plans and specifications.

It was at the next end of the bridge would land on West Main street and council wants to know if that will cause people to cross the bridge without having obtained permission for the work to proceed.

West side residents are anxious for the new walk. The commission men say they will have the project well must be repaired.

Southern Coke Makers Deny Demand Is Growing Lighter

Reports are being received (and a few are true) that demand for southern coke fields is on the increase. The D. Iron Trade Review (11-15-28) says that "several dealers" are withholding shipments to "other markets."

Demand for new business is light, but the products and market is a little easier and the price is being given it from \$2.41 to \$2.4 ovens with furnace coke from these fields. It is being sold at \$4.00 ovens. The county price is from \$3.10 to \$3.10 ovens for furnace coke and from \$2.00 to \$3.10 ovens for foundry coke. New Peter quotations are the same as last week. The price for 72 hour grade is from \$2.00 to \$2.35 ovens for 4 hour and \$2.35 ovens for 4 hour and \$2.35

**Miner, Organized Branch of American
Mine Safety Association**

Fifty miners representing the Tower Hill No 1 and No 2 mines in Thompson No 1 and No 2 and the Orient and Republic mines organized the Republic section of the American Mine Safety Association at Republic last night. The following officers were elected: President W. W. Himmels, vice president Ralph Keenan, secretary and treasurer H. C. Millward.

It is reported in Pittsburgh that Judge S. J. Newman of the State Supreme Court had been selected as arbitrator in the dispute between the Pittsburgh Railway Company and its employees.

The employees recently selected Congressman Stephen G. Porter as their arbitrator while the company chose Attorney John J. McQuinn.

It was understood that there was to be a meeting of the arbitrators after about 10 days deliberation. Finally settled the matter by telegraphing to Porter being in Washington and that Attorney McQuinn was the final choice of the other side to whom the selection had been left.

U. S. Engineers are Investigating Conditions in Ohio Valley

United States engineers are making a survey of the quantity of mine water that is drained into the navigable Ohio river, acting under a resolution passed by the House of Representatives last year. The study is being made by the United States engineers at the expense of the coal, oil and gas manufacturing companies in the Ohio valley.

It is declared that the pollution of the Ohio river by the manufacturing companies in the Ohio valley is causing a loss of \$100,000,000 a year in the form of increased cost of water for steam boilers and the water used by the inhabitants of the cities and towns is injurious to health.

Sign Wage Scale
The Bunsen Coal Company of Illinois has effected an agreement with its miners for a two-year period.

With impressive ceremonies a class of 210 children and 70 adults was confirmed by Bishop J. F. Regis Cavanaugh of the Pittsburgh Diocese at the Immaculate Conception Church last Thursday. This ceremony has been given every five years that confirmation has been administered by the bishop in Connellsville.

Before the confirmation, masses were sung at 7:30, 7:40 and 8 o'clock. The girl confirmants were all attired in white and the boys in dark suits and the procession to the altar was led by the choir.

Assisting Bishop Cavanaugh were Rev. Matthew Smith of Altoona, deacon Rev. John J. Graneey of Levensburg, sub-deacon Rev. Thomas Smith of Altoona, and the choir director, Edward Glendon of Levensburg. The readings were by Father M. A. Lumbing, secretary J. H. Sullivan, New York, honor guard by the Levensburg club, they were led by J. Burns, pastor, and W. J. Mertz, assistant pastor, of the Immaculate Conception Church.

During the ceremony the choir sang "The Lord Is My Strength and My Creator Strong" and the congregation joined in the singing of "Veni God, We Praise Thee."

A collection of \$100.50 will be confirmed by the Rev. Father St. Vincent De Paul's Church at Levensburg this afternoon at 3 o'clock.

Seventy members of the senior class of high school finished their course of last night and were formally graduated and presented with diplomas at the commencement exercises in the Colonial Theatre. Not one of the three graduates that had places on the program referred to the occasion as "world's broad field of battle" for the embarking for a voyage on "the stormy sea of life. The exercises were unusually devoid of these classic and literary allusions.

An audience somewhat smaller than that which attended the class day exercises and the class play was present for the graduation in the big theatre was taken and there were many who stood during the entire

STUCK BY A CAR.

Unknown Man Well Dressed, is Dying at Mount Pleasant.

MOUNT PLEASANT, June 6.—An unknown man well dressed and apparently an American was struck by the last street car southward last night. The accident happened before daylight and the man was brought to the hospital here. He cannot recover.

When struck he had six cents in his pocket and a great many newspapers by which an attempt might be made. His skull was fractured and he was struck by the
